

Reliable, on demand gas water heating.
AUSTRALIAN ENGINEERED • CONTINUOUS FLOW TECHNOLOGY

GINKGO G30 CONTINUOUS FLOW WATER HEATER

6 Star Energy Efficiency • 30 Liters/Min Commercial-Grade Flow Rate • Instant Hot Water

ABOUT GINKGO AUSTRALIA

GINKGO Australia is a trusted supplier of high-efficiency gas water heating systems engineered specifically for Australian homes and commercial applications. Headquartered at 6 Queen Street, Thebarton SA, GINKGO is dedicated to engineered reliability, thermal performance, and outstanding customer satisfaction. Our continuous flow water heaters deliver instant hot water on demand with exceptional fuel efficiency and robust long-term durability.

GINKGO G30 Continuous Flow Water Heater

- ♦ **Commercial-Grade Flow Capacity:** Delivers 30 Liters per minute of hot water at a 25°C rise, ideal for large multi-bathroom homes and high-demand applications.
- ♦ **6 Star Energy Efficiency:** 235 MJ/hr input with advanced thermal design to maximize fuel savings and minimize energy costs.
- ♦ **Digital Control Panel:** Includes precision digital remote controller for exact temperature setting and real-time operational feedback.
- ♦ **10-Year Heat Exchanger Warranty:** Crafted with oxygen-free copper for superior heat transfer conductivity and extra corrosion protection.
- ♦ **Compact Heavy-Duty Mount:** Space-saving 22.0 kg weatherproof casing engineered for outdoor wall mounting in tough conditions.

KEY ADVANTAGES & PERFORMANCE HIGHLIGHTS

✓ SAFE & RELIABLE

Built with advanced safety features including flame failure protection, over-temperature cut-off, and automatic pressure relief valve.

✓ CONSISTENT PERFORMANCE

Stable hot water all year round with intelligent microcomputer monitoring that maintains precise, steady water temperature.

✓ ENERGY EFFICIENT

6 Star Energy Rating engineered for maximum fuel efficiency, offering significantly lower running costs and reduced carbon footprint.

✓ EASY INSTALLATION

Compact design with standard 3/4" gas and water connections for fast, hassle-free installation and retrofit replacement.

GINKGO G30 TECHNICAL SPECIFICATIONS & PERFORMANCE

FEATURE / SPECIFICATION PARAMETER	GINKGO G30 SPECIFICATION
Hot Water Production Rate (@ 25°C Temp Rise)	30 Litres / Minute
Gas Type Compatibility	LPG / Natural Gas (NG)
Gas Input Rating (MJ/hr)	235 MJ/hr
Star Energy Rating	6 Stars (Ultra-High Efficiency)
Pre-set Temperature Options	50°C / 60°C
Water Supply Pressure (Min / Max)	1000 kPa
Start-Up Minimum Water Flow	2.0 Litres / Minute
Power Supply Requirements	240V ~ 50Hz Standard Outlet
Ingress Protection (IP) Rating	IPX4 Weatherproof Casing
Connection Fittings Size (Gas, Cold & Hot)	3/4" (20mm) Threaded Connections
Unit Weight	22.0 kg
Physical Dimensions (H x W x D)	566 mm x 373 mm x 240 mm
Heat Exchanger Warranty	10 Years Limited Warranty

HARDWARE ENGINEERING & BUILD QUALITY

- ✓ **10-Year Heat Exchanger Warranty:** Heavy-duty oxygen-free copper heat exchanger for maximum thermal conductivity and corrosion resistance.
- ✓ **Low-Flow Activation:** Precision water flow sensors trigger burner activation at flow rates as low as 2.0 L/min.
- ✓ **Automated Freeze Protection:** Integrated anti-freeze heating modules protect internal pipework during frost conditions.
- ✓ **Precise Burner Modulation:** Microcomputer-controlled gas proportioning valve always delivers steady water temperature.

CERTIFIED FOR AUSTRALIAN SAFETY, EFFICIENCY & QUALITY

Lead Free WaterMark
AS/NZS Plumbing Approved

GasMark (IAPMO)
Safety & Thermal Certified

Gas Safety Certification
Australia & NZ Compliant
